TERMS OF SALE

1. Every item is guaranteed to be as represented, and to give satisfaction, as in all past Bolender sales.
2. All bids are by mail, in fairness to all those who could not attend personally.
3. There are positively no reserves on any item by anyone, and every lot will be sold to the highest bidder, at so much for the lot. All bids will be executed below your bids where other offers permit, in good faith. Where two or more bids are exactly the same on any lot, or tied, the lot goes to the first bidder at exactly his bid.
4. No unlimited bids will be accepted. Mark your highest limit on the bid sheet (on back page of catalogue) and if you need more space for bids, use any ordinary sheet of paper. We will buy as much under your bids as other actual offers permit.
5. New bidders or customers sending bids for the first time at these sales must positively give first class references, or else send a deposit of at least 25 per cent of the total amount of bids. References acceptable would be the name of some other dealer from whom you have had coins on open account, or name of some collector known to us, or else name of your bank. To those known to me who have established credit, purchases will be sent out promptly after the sale. In appreciation of this courtesy, the purchaser will remit promptly. Postage and registration or insurance is paid by the purchaser.
6. California buyers will be charged 4 per cent state sales tax.
7. The terms are prompt cash settlement after sale, and no time given. Collectors who are not certain that they can pay promptly are asked not to bid. The coins in the sale are the property of my clients, and I must make prompt settlement for them.
8. A list of all prices realized at this sale will be supplied for one dollar, if ordered before the sale date.
9. Please send your bids now as there is little time left before the sale.

KING FAROUK COLLECTION OF "BULLET MONEY" OF SIAM

The unit of the silver coinage of Siam is the tical, for which the Siamese term is the bat. The early coinage of Siam was in spherical form, commonly known as "Bullet Money". Generally these were coined in silver in 8 different sizes from 4 ticals to 1/32 tical, these all based on weight. The 1 tical weighs close to half an ounce, or 237 grains troy. The "Bullet Money" coins were in use from the 13th century down to 1861, when the first ordinary round coins were made for Siam, in

the Birmingham mint in England. The "Bullet Money" pieces are very odd, curious and interesting coins and always attract a lot of attention in displays and shows. Those coined in the metal antimony are all early coinage and very rare. This remarkable collection from the King Farouk treasures, contain many rarities. Nearly all were purchased from London dealers some at very high prices. Every collector should own at least one specimen from this famous collection.

BEAUTIFUL LOT OF MORGAN DOLLARS

It looks now, more than ever, that this is the best time to stock up on the Morgan silver dollars. For a whole year now, nothing good has turned up at Nevada casinos and banks, except four very common dates in quantity, besides bags of coins so badly scratched up, they are worth only face value. My own purchases of Morgan dollars have been the lowest in 10 years, simply nothing worth while shows up. I am still very much in the market to buy. A word to the wise is sufficient. They are among the most reasonably priced U. S. coins.

544. 1878 dollar. New type, design by Morgan. Phila. mint. Brill. unc. Cat. \$3.50.
545. 1878 San Francisco mint. Brill. unc., early strike with proof surface on both sides. \$4.

EARLY AMERICAN COLONIAL PAPER MONEY

This is an unusual opportunity for collectors to start or add to their paper money collection in this interesting and historical series, that is rapidly growing in popularity. Here you have 'the real "antique" series of American numismatics. The information of a collection of colonial notes is most fascinating, and the prices are reasonable, considering the excellent quality of the bills in this great collection. Some very rare issues are offered. Please note that all notes before 1770 are seldom met with in fine condition, so the collector must not be too critical of very early dates. These notes here offered are the last of the great collection offered in my last four sales. In my past 3 sales, about 400 lots were offered and sold, and bidding was very active. In fact, all paper money is selling very well to-day, and all is on the way up. All colonial notes have autograph signatures, many of famous men, and the prominent persons of the time.

UNITED STATES PAPER MONEY

This series has become very popular since the appearance of Mr. Robert Friedberg's book PAPER MONEY OF THE UNITED STATES was first published in 1953. A second revised and improved edition was distributed in 1955. The numbers used in my listings below refer to Mr. Friedberg's excellent book, the standard authority on the subject to-day. We can supply you with the latest edition for \$7.50 prepaid. The valuations are given as a guide to bidding, although higher or lower prices may prevail. However, all lots are to be sold, without limit, as in all past Bolender sales. Most of the notes here offered are from the famous King Farouk collection purchased by me in 1954.

1139. **1862 U. S. \$5.00 Legal Tender.** First obligation. At left is the statue of Columbia as on top of the capitol building in Washington. At right is a portrait of Alexander Hamilton, first secretary of treasury under Washington. Friedberg No. 61. Very fine. From King Farouk coll'n. \$50.

UNITED STATES COPPER HALF-CENTS

Collectors should realize that the half-cents are at least ten times as scarce as the large copper cents. One of the veteran dealers of all time, who cataloged more auction sales than any other American, Thomas L. Elder, stated that there are 100 times as many large cents as the half-cent pieces, and that the half-cents are 100 times as rare. These are fine coins to go after, especially at to-day's low prices in these series.

END OF SALE

THANK YOU

If you collect coins of Mexico, you will find a superb collection of several hundred. See the index under foreign coins. Rare money of Siam struck in antimony, from the King Farouk collection, fine ancient Greek & Roman coins, choice lot of foreign silver crowns, with "pieces of eight" from a hoard recently found, very large Russian Coins, and many interesting foreign gold, silver, and copper coins are offered.

Estimates in this catalogue, or the valuations are given as a guide and are generally the Guide Book or catalogue prices of the 11th edition. As these prices were prepared a year ago, it follows that the new catalogue prices already prepared for the new 12th edition of the Guide Book to appear soon will, in many cases, be considerably higher. Therefore, it is to be expected, that many items in this sale will actually sell above my estimates given. Former customers at my sales know that I will do my level best for you with all bids, and buy under your bids wherever possible. Please make your bids higher where coins are already selling above catalogue prices. I wish to avoid making high and unreasonable estimates.

Efficiency in our office is the reason why many of you received the price list of the last sale, before you received your coins. All of the printed price lists were mailed first class **only six days after the sale date**. In this way, you can tell whether you bought anything, and what. Of course, it requires a few more days to get all the coins and bills sent out to the hundreds of purchasers. Please be patient. The largest orders are sent out first, and the smallest amounts go out last. This is why you may receive your price list before the coins. If your coins arrive without a statement, just wait a day or two for that to arrive, airmail.

When your collection is for sale, write me a letter. I will purchase it for cash, and the larger the collection is, the better. If your collection is very large I will come to your home with my car, for the collection, and save you all the work of packing. No extra charge.

Biggest bargain in the sale will be the price list at only one dollar, if ordered in advance of the sale. You will get from it much interesting information and pleasure, and will profit from the up-to-date record of present-day values. After the sale date, the price is two dollars. Just mark your order in the place provided on the bid sheet. These are mailed first class about a week after the sale.

COIN COLLECTORS' COLUMN OF COMMENTS

Rare coins and paper money for everybody are to be sold in this sale. Not always do we have so wide a variety, that **we do expect a bid sheet** from nearly every person who receives a catalogue. Our mailing list has grown so large over the past half century (with over 20,000 names of collectors on our lists) that it becomes necessary to revise it, due to high costs of printing such a catalogue, and distributing it. Therefore, **IF YOU ARE NOT BIDDING AT THIS SALE, please drop a card or letter in the mail**, requesting that we continue your name on the mailing list. If we do not hear from you, or receive bids from you, we will consider that you are no longer interested.

Look at the index in the back part of this catalogue, to find quickly the many interesting items. There are **beautiful coins and currency** in nearly all series, over 6000 pieces in all, with choice and rare items too numerous to mention any one. The J. Ambrose Long collection was nearly 50 years in its process of completion. Mr. Long lost his life in an auto accident a year ago. He was a prominent civic worker in his community, much beloved by all the people there who knew him, for he was indeed a righteous man. Mr. Long was one of my first customers when I was a very young dealer, and he always selected the finest coins. I sold him his 1885 proof nickel 5-cents for thirty cents. As all collectors should make plans for the disposal of their collections after death, Mr. Long left instructions with his widow, to turn over to me the entire collections. The remaining part will be sold in the next sale.

Your bids are worth while at these sales, which are very different from some sales where most items are sold on the floor to room bidders. Since less than 5% of the collectors and dealers are able to attend any public sale in person, I prefer to give every mail bidder equal and fair opportunity to acquire any items in these sales. In this sale, every item goes to mail bidders, and you are one of them. Thus, your chance of successful purchase is much greater than at most sales. Every item is sold without reserve, and to mail bidders only.

Collectors of experience have found that not all dealers classify the condition of coins alike. To the collector this should be a very important matter, and wise collectors soon learn where to buy their coins, and where not to do so. Mr. Bolender began to collect and study coins just 52 years ago. He is from the old school, and learned to classify coins from the Chapmans, Elder, Proskye, and Lyman H. Low, attending many of their sales in person. Much has been said and written on the subject of condition of coins, in this country, in recent years. The matter rests upon the honesty and integrity, and the knowledge and experience of the dealer. Mr. Bolender believes that a coin or note should be described exactly and carefully, and the same whether he is buying or selling it. In auction his position is neutral between the buyer and the seller or owner, and every coin is described by Mr. Bolender personally, and never by the consignor. The many years of success with these 192 sales would never have come about, without this care. A coin described as "fair" is not a poor or worthless coin, if it is rare. Fair coins show at least half of the de-

sign and lettering. Good coins are often not badly worn, and they must show all design and letters and date plainly. Fine coins have very little wear, and such coins as Indian cents and Liberty head nickels must show all letters of word LIBERTY clearly. If any of these coins have bad nicks, dents, scratches, planchet defects, corrosion, or other defects, such defects should be also noted. A good coin ought to be "good" and not "bad". A fine coin should be very pleasing to the eye. Very fine, extremely fine, and uncirculated coins must all be choice pieces, of desirable quality, and defects should be stated. It is not fun to have to return coins that are not as represented. It can be delightful pleasure to receive items that satisfy.

When you receive your coins, your comments as to whether you like the condition of the coins sent you, or whether you do not, will be greatly appreciated. If anything is not satisfactory, you may be sure that Mr. Bolender will fairly consider your case.

More requests than ever come in for catalogues of these sales. Our supply of catalogues for the last sale was exhausted 10 days before the sale date. For any disappointments I apologize, but it is increasingly difficult to keep up with today's demand and interest in numismatics. Our advice is to get your bids in early, and requests for price lists before the sale date.

Important. Many new collectors bid at each of our sales. Too many of these send in their bid sheet only a few days before the sale date, with a reference for us to look up. Since it often requires from one to two weeks to process a reference and get replies, we cannot enter some of these bid sheets. If you are a new customer, and late with your bids, the proper way is to enclose postal money order or bank draft, or cash registered, for the required 25% deposit, and mail it as early as possible. Early bidders have a much better chance than late bidders, for there are often two or more bidding the same amount on a coin or bill, and then it goes to the first bidder.
